

THE BROKER

A fundraiser in support of St. Michael's Hospital

St. Michael's Young Leaders (SMYL) are excited to present THE BROKER. It's a health-care stock pitch competition for up-and-coming investment analysts that also raises funds for St. Michael's Hospital, a global powerhouse in medical research, education and patient care located in Toronto. The competition is set to take place this fall. We are calling on students and young professionals to showcase your business and pitching skills in front of your peers and leaders in the financial sector.

Students can enter the competition individually or as a team of up to three. You'll select a health-care investment from the list of 10 publicly traded companies based in North America listed below:
